

UNIVERSITY ADMIT ELIGIBILITY PREDICTOR

Team ID

PNT2022TMID21016

Project Name

UNIVERSITY ADMIT ELIGIBILITY PREDICTOR

UNIVERSITY ADMIT ELIGIBILITY PREDICTOR

OBJECTIVE:

- University eligibility predictor helps to predict students About their admissions in college. This helps the student not only to help in filling out the application forms but also give the students an idea about their future college by calculating their cut off.
- The aim of this project is to help students in shortlisting their universities. When students come from rural places, they find it hard to go along with the formal procedures. So, this application helps them a lot and eases out their fear.
- Hence, our proposed computer aided system will help the students to get the list of all colleges in which they could get the admission at the click of a button.
- The students only have to enter their marks of GRE, TOFFEL, UNIVERSITY RANK ,etc. With this application, the students can very easily obtain the list of colleges even branch wise and course wise. This predicted output gives them a fair idea about their admission chances to a particular university.
- This will not only make the admission process easy but also minimizes stress for students. The main objective of our system is to make the right choice of colleges.
